

# Agen / Valence d'Agen

## Canal des 2 Mers by bike - Atlantic / Mediterranean sea

Leave Agen's port via a greenway. The way continues close to the Garonne, although the river is rarely visible from beside the canal. After Lamagistère, you enter Valence d'Agen, passing close to former abattoirs superbly converted into an information centre. The town was built as a fortified bastide in the 13th century. Admire its covered market, dovecotes, washhouses and port. Every summer, the show entitled Au Fil de l'Eau une Histoire revives the town's important past as a port.
